Summary

I am a computer science student and veteran looking for work in software development. I have 1 year of programming experience working primarily with C# in .NET applications and Unity3D. I also have basic web development experience with PHP and the CakePHP framework. I am mostly self-taught in software development.

Languages

C#, PHP, JavaScript, HTML, CSS

Software

Unity3D, Visual Studio, NetBeans, Git

Databases

MySQL

Certifications

Microsoft Certified Professional

Microsoft Technology Associate

CompTIA A+

General Work Experience

Infantryman - May 2009 to September 2012

United States Army - 3rd US Infantry Regiment, Ft. Myer, VA

My duties at Ft. Myer included marching in ceremonies in the Military District of Washington, and maintaining rosters in the orderly room using Word and Excel.

Cashier and Barista - July 2006 to March 2008

Randalls - Richmond, TX

I worked at my local grocery store for two years in high school. The first year was spent as a cashier, and the second was at the in store Starbucks.

Education

Computer Science (Currently Studying)

University of Phoenix (Online) - Phoenix, AZ
